## PG3 NEO DESIGN STAND BY HOF

With the PG3 NEO Design Stand, HOF is setting new standards for multifunctional stands that are second to none.

This applies equally to the technical features and the discrete design: the PG3 NEO offers countless mounting options for **lighting, video and sound** - and **all with just one PG3 NEO Set!**

The PG3 NEO can be built in **eleven different heights** up to a maximum height of 3200 mm with a permissible load capacity of 60 kg. Buildable heights are 500 mm, 900 mm, 1100 mm (all three with small-size foot support), 1400 mm, 1800 mm, 2000 mm, 2200 mm, 2400 mm, 2600 mm, 3200 mm.

The design of the PG3 NEO is deliberately discrete and understated, making it ideal for use at trade shows, conferences and live events. And thanks to the set, everything is where it should be when setting up.

The PG3 NEO is **fully made in Germany** - from its development to manufacturing.

## PG3 NEO DESIGN STAND BY HOF AT A GLANCE

The surfaces are black powder-coated.

The steel base plate can hold the extensions in three different positions.

The set includes the following functions:

- Preview function
- Universal support to mount lighting or small loudspeakers
- Universal plate to mount moving lights, beamers etc.
- TV mounting plate
- Speaker adapter to hold speakers in the center
- Screen mount to hold two screens (back to back)
- Screen holder, adjustable in four angles (e.g. for previewers or touchscreens)
